Dear Sir or Madam,

Following presentation of the EU Fundamental Rights Agency's report on challenges facing civil society organisations working on human rights in the EU, we kindly enclose documentation from our case.

During the discussion, we learned that ODHIR is one of the institutions that may be interested in monitoring of the civil society's situation. The enclosed documents contain report to the police on painting our information plate with such offensive words as "Soros bastards" or "Traitors". Police did not start investigation. According to the phone information, the court in Warsaw, Mokotów (case number XIV KP 445/18) agreed with the police.

Yours faithfully,

Katarzyna Batko-Toluc
